## Introduction

Unika Ltd. is Europe's leading manufacturer of products required to install and maintain all types of kitchen work surfaces including Laminate, Compact Laminate, Solid Wood, Granite, Quartz and Solid Surface.

For over 25 years Unika has specialised in serving the Kitchen, DIY and Building markets in over 50 countries worldwide.

Unika manufactures innovative quality solutions to meet the specific needs of the installers. Unika products are independently tested to the highest standards and are approved by leading kitchen manufacturers and large retailers across Europe.

Unika products are manufactured in Europe, our factories are ISO9001, ISO14001, ISO18001, FSC and PEFC compliant. We are well known worldwide for quality performance and service including 24 hour technical support.

# Installation

## ColorFill

### The Original Laminate Worktop Joint Sealant

Unika ColorFill™ is the first sealant to be designed specifically for the installation of mitred worktop joints. ColorFill has been used by tradesmen since its formation 26 years ago and is the de facto standard for Joiners and Kitchen Fitters.

ColorFill performs three tasks:

- It bonds the joint together.
- It seals the joint against water and domestic detergents.
- It is exactly colour matched to the worktop so making the finished joint almost invisible.

ColorFill colours have been specifically developed to match the most popular brands of laminate across Europe including plain colours, woodgrains, and patterned finishes. In fact Unika has a colour to match almost every worktop finish.

ColorFill has been scientifically formulated and tested to resist moisture, detergent and other household products as efficiently as the laminate and will withstand heat and direct sunlight. Although we recommend that hot pans and dishes from the oven should not be placed over joints. ColorFill requires no mixing, is easy to apply and is available in handy size 25g tubes sufficient for one worktop joint.

# TopSeal

## Worktop Backsplash and Uprand Installation

TopSeal® is a new colour matched adhesive and sealant for backsplashes and upstands. Use it also to fix undermounted sinks. It is the latest generation, high performance toughened polymer technology and is the same formula as the ColorJoint 20g Tube but in a thicker grade material.

TopSeal's excellent bond strength gives instant grip without support, there's no slip and it has gap filling properties.

TopSeal adhere's to a wide range of surfaces – Quartz, Laminate, Compact Laminate, Stainless Steel, Glass and many more. It is colour matched to the worktop/backsplash to give a seamless finish.

TopSeal is fast curing even at low temperatures this means backsplashes and upstands are ready to use in 15 hours.

TopSeal is environmentally friendly. It contains no solvents, this means there is no smell or fumes during or after installation.

TopSeal is available in a 290ml Cartridge, there are 15 standard colours and small batches of special colours can be made to order. TopSeal is paintable once cured.

TopSeal has an 18 month shelf life (unopened).

Laminate

# EasiBolt

EasiBolt® bolt holders to hold worktop connecting bolts in place leaving both hands free for tightening and levelling.

Patented system

## Worktop Tape

Double sided worktop tape to fit laminate edge strip to worktop. Worktop tape is quick and easy to apply, temperature resistant, resistant to household cleaners and creates a permanent bond.

Worktop Tape is available in the following roll sizes:

- 50 Metres x 40mm width
- 5 Metres x 40mm width

*Worktop Tape creates a quick, clean, strong bond*

## Heat Reflective Tape & Sheet

Heat Reflective Tape and Sheet is a 30 micron aluminium foil, coated one side with an acrylic, pressure sensitive aggressive adhesive. It has temperature resistance to +110°C, it is water resistant and flame retardant.

Heat Reflective aluminium tape will protect worktop hob cut outs from radiant heat.

Tape Roll = 45 metres x 50mm width  
3 metres x 50mm width

Heat Reflective aluminium sheet will protect the worktop underside from radiant heat from dishwashers and other appliances.

Sheet = 1 metre x 600mm.

## No 20 Jointing Biscuits

Use to level laminate worktop mitre joints. Available in a variety of handy pack sizes.

# Rejuvenate

## ColorFill

### The Original Laminate Worktop Repairer

Unika ColorFill™ is specifically designed to repair laminate and melamine surfaces simply and effectively.

ColorFill is an easy to use self setting material which requires no mixing. ColorFill is applied using a spatula and is touch dry in one hour, after this it is waterproof and resistant to household detergents and cleaners. If used properly ColorFill provides a permanent repair.

There are over 400 ColorFill colours which have been developed to match the most popular brands of laminate including plain colours, woodgrains and patterned finishes. In fact Unika has a colour to match almost every worktop finish.

Manufactured in the UK

Laminate

## Care & Cleaning

### Laminate and Antibacterial Surface Cleaner

Use on Laminate and Melamine surfaces.

- Unika Laminate Cleaners are ready to use everyday specialist cleaners.
- Clean worktops and surfaces to a sparkling shine – no smears!
- Tackle everyday grease and grime
- Clean worktop safely – they are biodegradable and solvent free
- \*Contains Antibacterial properties, resulting in a hygienically clean surface

# Installation Kit

## Laminate Worktop Installation Kit

Include a ColorFill Worktop Installation Kit with every worktop sale (one per mitre joint) to ensure correct joint installation.

### Contents:

- 3 x EasiBolt
- ColorFill 25g tube + Applicator Tool
- ColorFill Solvent 20ml

perfectly**

## Compact Worktops

Compact

# Installation

## ColorJoint

10 standard colours in stock – special colours can be made to order

### ColorJoint® is a new colour matched adhesive and sealant for Compact Laminate Worktops.

ColorJoint is the latest generation, high performance toughened polymer technology. It is a super strength formula, tougher and faster curing. It has excellent bond strength and gives instant grip without support.

ColorJoint is colour matched to the worktop to give a seamless finish. It is available in 10 standard colours and small batches of special colours can be made to order.

ColorJoint is also an excellent gap or joint filler and it has very little shrinkage and is UV

stable. It is tough to touch which means it lasts longer in the joint and does not pick up dirt like silicone. Open time is 10-15 minutes, giving longer to tighten and level the worktop.

ColorJoint is fast curing even at low temperatures, this means worktops are ready to use in 4 hours.

ColorJoint is environmentally friendly. It contains no solvents, this means there is no smell or fumes during or after installation.

ColorJoint has an 12 month shelf life (unopened).

Compact

# Care & Cleaning

## Laminate and Antibacterial Surface Cleaner

Use on Laminate & Melamine surfaces

- Unika Laminate Cleaners are ready to use everyday specialist cleaners.
- Clean worktops and surfaces to a sparkling shine – no smears!

- Clean worktop safely – they are biodegradable and solvent free
- \*Contains Antibacterial properties, resulting in a hygienically clean surface

# Installation Kit

## Compact Laminate Worktop Installation Kit – BOX

Include a ColorJoint Worktop Installation Kit with every worktop sale (one per mitre joint) to ensure correct joint installation. There are also products for Care and Maintenance that can be used after installation and should be passed onto the customer.

### Contents:

- ColorJoint 20g tube + Applicator Tool
- ColorFill Solvent 20ml
- White lint free cloth
- Biscuits (3 wooden)
- Toggle Bolt x 3
- Allen Key 3mm
- Linseed oil 20ml
- Sandpaper 180 grit, 240 grit x2
- Abrasive disc pad – 320 grit
- Brass spreading dowel x 10
- Sink Bolts x 10
- Microfibre Cloth
- Laminate Worktop Daily Cleaner 500ml
- Drill Bit with Stop

Compact

## Compact Worktop Installation Kit – BAG

Use Compact Laminite Jig to rout cut outs for toggle bolts

### Contents:

- 1 x 20g Tube ColorJoint (Colour To Match Worktop)
- 1 x ColorJoint Applicator Tool
- 1 x 20ml Bottle of Acetone
- 1 x 20ml Bottle of Linseed Oil
- 10 x Brass Spreader Dowels
- 10 x M6 x 10mm Roofing Bolts
- 3 x Toggle Bolts (Worktop Connector Bolts)
- 1 x 3mm Hex Key
- 2 x 180 Grit Sandpaper Sheets
- 2 x 240 Grit Sandpaper Sheets
- 3 x No.20 Jointing Biscuits
- 1 x Nylon Finishing Pad (320 Grit approx)
- 1 x Drill Bit with Depth Stop

# Care Kit

## Compact Laminate Care Kit

Includes everything required to maintain a Compact Laminate Worktop and keep it looking as good as new.

### Contents:

- Laminate Worktop Daily Cleaner 500ml
- Microfibre Cloth

## Super Matte Surface Care Kit

Includes everything required to look after a Super Matte surface and keep it looking as good as new.

### Contents:

- 1 x Super Matte Surface Cleaner 500ml
- 2 x Magic Erasers
- 1 x Microfibre Cloth

Super Matte Surface cleaner is specifically formulated for Super Matte worktops, wall panels and doors which are prone to fingerprints. It is a ready to use spray cleaner which has excellent cleaning power on everyday grease and grime. It cleans Super Matte leaving it fingerprint and streak free.

For tough dirt, stains and marks use Magic Stain Eraser. It penetrates deep into the surface texture and breaks up the dirt.

## **Solid Surface Worktops**

Solid Surface

# Installation

## ColorSeam

### Colour matched adhesive to joint and edge Solid Surface, Composite, Granite and Quartz surfaces

250ml

100ml

50ml

Sagging

Unika adhesive - No Sag

- Wide range of colours to match all Solid Surface Worktops exactly
- Fast small batch production
- Available in 3 sizes – 50ml, 100ml & 250ml
- Excellent UV resistance (independently tested)
- **SmoothCure** Technology
- Thicker viscosity for easy use and stronger bond in joints
- Minimal sag of a vertical bead, eliminating drips
- High strength bond on Composite and Solid Worktops
- Sandable in less than 30 minutes
- Use for jointing kitchen and bathroom worktops
- Use in laboratories/healthcare, reception counters, hotel rooms etc.

ColorSeam® is a durable two component Methyl Methacrylate that will provide a colour matched seamless finish to solid surface and composite worktops made from acrylic and acrylic and polyester blends. It can also be used on quartz and natural stone surfaces.

Unika's new formulation of methacrylate coloured adhesives offer higher reliable bond strength and quicker cure speed than traditional methacrylates.

Unika ColorSeam has an advanced non-stain colour system. Once cured the bond line is UV stable and has very high chemical and moisture resistance. It is sandable in less than 30 minutes.

It is available in range of popular standard colours. We also specialise in small batch production for special colour runs and we offer unrivalled colour accuracy using the very latest computer based colour spectrometers.

ColorSeam is available in three sizes – 50ml, 100ml and 250ml, meeting the demands of the DIY, trade and in house fabrication markets. The dual component cartridges accurately mix and dispense the pre coloured adhesive, providing consistent results and

Manufactured in the UK

minimal waste. Each size comes with the appropriate mixing nozzle and further nozzles are available if required.

Unika's brand new filling line incorporates the latest technology meaning accurate fill, no air bubbles and consistent colour and performance.

Unika has been manufacturing coloured adhesives for over 25 years and supplies the bulk of the large kitchen manufacturers and distributors across Europe. All products have been tried and tested to ISO quality standards.

Unika's production, technical support and distribution is located in the UK and further distribution in Germany guarantees quality

service and short lead times throughout Europe and the rest of the world.

ColorSeam is very versatile, it can be used for jointing kitchen and bathroom worktops. It can be used in laboratories, on reception counters, tables, hotel rooms etc.

ColorSeam is the perfect adhesive for your quality assured installation.

**We manufacture  
over 500 colours  
perfectly**

We specialise in small batch production for special colour runs and offer unrivalled colour accuracy (matching to  $DE < 1.0$ ) using the very latest computer based colour spectrometers.

We have a database of matches from all the major Solid Surface manufacturers.

## Match Perfect for ColorSeam®

Unika has developed a brand new Match Perfect matching system for ColorSeam at the Unika Color Lab. This exclusive new process is the first of its kind and it enables us to match every solid surface colour on the market to a DE less than 1.0.

The new Match Perfect system identifies the pigment loading used by the sheet manufacturer and it uses that plus the sheet colour and opacity to define the best colour match.

The system works with all 100% Acrylic, Polyester Blend / Polyester Solid Surfaces, Quartz, Natural Stone and Hybrid surfacing materials.

## How it works

The Match Perfect system is carried out on every single colour in your range. We do not match to other manufacturer's adhesives or use competitor's colour matching charts.

We take your full range of samples and cut and seam every piece leaving a gap at one end so we can see the colour of the adhesive in relation to the sheet material sample. As the seam develops a tighter joint further down the sample we can then measure our match into the photo spectrometer for the DE reading. If the DE reading is less than 1.0 we are good to go, if not then we begin the process again until we reach the desired result.

## The result

Every colour in your range obtains a Match Perfect ColorSeam Adhesive colour with a DE less than 1.0. We send you the data and keep it on our matching database. New colours can be added at any time – just send us your samples!

Your customers can also access this Match Perfect database information on line. We will not offer any near match adhesive's where the joint is finished and a line can still be seen! Your customer can be safe in the knowledge that the match will be accurate and work first time. We are the Colour Specialists and have been manufacturing coloured adhesives for over 25 years.

## Finally

You will receive a range of lab produced ColorSeam colour samples for your own personal testing.

## Heat Reflective Tape & Sheet

Heat Reflective Tape and Sheet is a 30 micron aluminium foil, coated one side with an acrylic, pressure sensitive aggressive adhesive. It has temperature resistance to +110°C, it is water resistant and flame retardant.

Heat Reflective aluminium tape will protect worktop hob cut outs from radiant heat from dishwashers and other appliances.

Tape Roll = 45 metres x 50mm width  
3 metres x 50mm width

Heat Reflective aluminium sheet will protect the worktop underside from radiant heat.

Sheet = 1 metre x 600mm.

# Rejuvenate

## Solid Surface Rejuvenate

Use on: Solid Surface Worktops

- Solid Surface Rejuvenate will renovate Solid Surface acrylic and polyester worktops.
- It is designed to remove minor scratches and leave the worktop as good as new. Solid Surface Rejuvenate contains mild abrasive particles which when coupled with a white nylon pad will buff up the work surface.
- Use as and when required on worktop areas that are subjected to a lot of wear and tear. Or use to renovate your whole top when it becomes scratched and dull.
- Unika Solid Surface Rejuvenate is a ready to use specialist cleaner that will renovate the work surface safely.

# Care & Cleaning

## Solid Surface Daily Worktop Cleaner

Use on: Solid Surface Acrylic Worktops

- Unika Solid Surface Worktop Cleaner is a ready to use everyday specialist cleaner, which tackles everyday grease and grime.
- Cleans worktop safely – it is biodegradable and solvent free.
- Cleans worktops without leaving smears to a sparkling clean finish.

## Solid Surface Shine

Use on: Solid Surface Acrylic Worktops

- Solid Surface Shine is a protective cleaner and polish specially formulated for Solid Surface Worktops. Apply weekly to leave a streak free long lasting shine.
- Solid Surface Shine will condition your worktop whilst adding a protective barrier against spills, ring marks etc. so making your daily clean a whole lot easier.
- Use in conjunction with Unika Daily Solid Surface Cleaner.

# Installation Kit

## Solid Surface and Composite Installation Kit

Includes everything a fitter requires to install a Solid Surface and Composite Worktop. There are also products for Care & Maintenance that can be used after installation and should be passed onto the customer.

### Contents:

- Sanding Abranet Disc 100/150/240 Grit
- Alcohol Wipes (pack of 2)
- Sanding Foam Pad 180 Grit
- Abrasive Disc Pad – White/Maroon/Grey
- Biscuits (4 wooden) [Composite Kit Only](#)
- 150mm Connecting Bolt x6 [Composite Kit Only](#)
- ColorSeam - Optional
- Heat Reflective Aluminium Sheet x2
- Heat Reflective Aluminium Tape 5m roll
- Fixings Pack (12 Slotted Angle Brackets, 48 screws & washers)
- Solid Surface Rejuvenate 500ml
- Solid Surface Daily Cleaner 500ml
- Disposable Gloves
- Microfibre Cloth

Solid Surface

Composite

# Care Kit

## Solid Surface Care Kit

Includes everything required to maintain a Solid Surface Worktop and keep it looking as good as new. Unlike most other surfaces, Solid Surface can be repaired. So little accidents, stains or scratches can usually be removed with relative ease.

### Contents:

- Sanding Foam Pad 180 Grit
- Abrasive Disc Pad – White/Maroon/Grey
- Microfibre Cloth
- Solid Surface Rejuvenate 500ml
- Solid Surface Daily Cleaner 500ml
- Disposable Gloves

**Solid Wood Worktops**

Solid Wood

# Installation

## Solid Wood RAPID Worktop Oil

- Fast Cure – two coats from start to finish will take under 4 hours.
- Drying time is 24 hours and the worktop will gradually become more water resistant over the following few days.
- Tough hard wax finish.
- Stain Resistant.
- Waterproofs.
- VOC – 2010 Compliant. This product contains <35 g/l VOC.
- EN71-3 Certified – Food Safe.
- Natural Satin finish.

Unika Solid Wood Worktop Oil nourishes and protects all types of timber work surfaces. Unika Worktop Oil penetrates deep into the wood producing a natural satin finish as well as a durable and water resistant seal.

Your worktop will need to be oiled at regular intervals to keep its looks and protection.

It is recommended to re-apply to the surface at least once a year or when needed. If the worktop looks dry and spots from daily use appear, it's time to oil.

## Heat Reflective Tape and Sheet

Heat Reflective Tape and Sheet is a 30 micron aluminium foil, coated one side with an acrylic, pressure sensitive aggressive adhesive. It has temperature resistance to +110°C, it is water resistant and flame retardant.

Heat Reflective aluminium tape will protect worktop hob cut outs from radiant heat from dishwashers and other appliances.

Tape Roll = 45 metres x 50mm width  
3 metres x 50mm width

Heat Reflective aluminium sheet will protect the worktop underside from radiant heat.

Sheet = 1 metre x 600mm.

# ColorJoint

ColorJoint is a New Colour matched, Waterproof, Solid wood worktop Joint Adhesive and Sealant.

Simply apply a bead along the top and bottom of the worktop joint, bring together, tighten and level in the usual way. Use the ColorJoint applicator to scrape off any excess along the top of the joint. After 4 hours sand the joint ready for oiling.

ColorJoint is the latest generation, high performance Toughened Polymer Technology. It has excellent bond strength and is fast cure taking 4 hours to fully harden.

ColorJoint is also an excellent gap or joint filler and it has very little shrinkage and is UV stable. It is tough to touch which means it lasts longer in the joint and does not pick up dirt like silicone. Open time is 10-15 minutes giving longer to tighten and level the worktop.

ColorJoint is environmentally friendly. It contains no solvents, this means there is no smell or fumes.

ColorJoint has 10 standard colours and small batches of special colours can be made to order.

ColorJoint has a 12 month shelf life (unopened)

**NEW**

# TopSeal

TopSeal is a new colour matched adhesive and sealant for backsplashes and upstands. Use it also to fix undermounted sinks. It is the latest generation, high performance toughened polymer technology.

TopSeal's excellent bond strength gives instant grip without support, there's no slip and it has gap filling properties.

TopSeal adhere's to a wide range of surfaces – Quartz, Laminate, Compact Laminate, Stainless Steel, Glass and many more. It is colour matched to the worktop/backsplash to give a seamless finish.

TopSeal is fast curing even at low temperatures this means backsplashes and upstands are ready to use in 15 hours.

TopSeal is environmentally friendly. It contains no solvents, this means there is no smell or fumes during or after installation.

TopSeal is available in a 290ml Cartridge, there are 10 standard colours and small batches of special colours can be made to order. TopSeal is paintable once cured. TopSeal has an 18 month shelf life (unopened).

# Rejuvenate

## Solid Wood Worktop Mousse

- Fast Cure
- Tough Hard Wax Finish
- Stain Resistant
- Waterproofs
- VOC – 2010 Compliant
- EN71-3 Certified – Food Safe
- Natural Satin Finish
- Quick & Easy to apply

Unika Solid Wood Worktop Oil Mousse is a quick and hassle free way to top up on worktop dry patches as they appear. Like the oil from the tin the mousse penetrates deep into the wood producing a natural satin finish as well as a durable and water resistant seal.

## Care & Cleaning

### Solid Wood Worktop Cleaner

- Ready to use Specialist spray cleaner
- pH7 Neutral Cleaner will not produce soap residue build up on the surface
- Non foaming and does not leave smears
- Cleans the worktop safely – non hazardous
- Biodegradable and solvent free

Unika Solid Wood Worktop Cleaner is a ready to use specially formulated pH7 Neutral Cleaner. It will remove light grease, fat, cooking stains, food residue etc.

It is important to use pH7 Neutral Cleaner on solid wood worktops because it stops the blue soap film (left by multipurpose cleaners) building up on the surface of the wood. The blue soap film stains the wood and it can be difficult to remove.

# Installation Kit

## Solid Wood Installation Kit

Includes everything a fitter needs to successfully install a solid wood worktop. Solid Wood needs to be treated with oil to give a water resistant finish. The fitter also needs to seal newly cut edges, for example sink cut outs.

### Contents:

- Heat Reflective Aluminium Sheet x2
- Heat Reflective Aluminium Tape 5m roll
- 375ml Solid Wood Worktop Oil
- Lint Free Cloths x2
- Disposable Gloves
- 150mm Connecting Bolt x6
- No.20 Jointing Biscuits
- Sanding Block
- Sandpaper 180 grit, 240 grit and 500 grit
- Abrasive Disc Pad - White
- Fixings Pack (24 Slotted Angle Brackets, 96 screws & washers)
- Silicone 290ml - Clear Neutral Cure
- 500ml Solid Wood Worktop Daily Cleaner

# Care Kit

## Solid Wood Care Kit

Includes everything the customer will require to maintain their wood worktop once installed.

### Contents:

- 150ml Solid Wood Worktop Mousse
- 500ml Solid Wood Worktop Daily Cleaner
- Disposable Gloves
- Lint Free Cloths x2
- Abrasive Disc Pad – White
- Microfibre Cloth

## Quartz Matt & Gloss Installation Kit

Includes everything a fitter requires to install a Quartz Gloss or Matt Worktop. There are also products for Care & Maintenance included that can be used after installation and should be passed onto the customer.

### Contents:

- Heat Reflective Aluminium Sheet x2
- Heat Reflective Aluminium Tape 5m roll
- Alcohol Wipes x2
- ColorSeam – Optional
- Fixings Pack (12 Slotted Angle Brackets, 48 screws & washers)
- Silicone 290ml - Clear Neutral Cure
- Granite & Quartz Daily Cleaner 500ml
- Microfibre Cloth
- Disposable Gloves
- Matt Stone Paste – 150g *Quartz Matt Kit Only*
- Abrasive Disc Pad – White *Quartz Matt Kit Only*
- Magic Eraser *Quartz Polish Kit Only*

# Installation Kit

## Premium Quartz Worktop Jointing & Backsplash Installation Kit

This kit is for Quartz Worktop Jointing using premium colour matched ColorSeam adhesive which produces a tight and almost invisible joint. It includes everything a fitter requires to join a Quartz Gloss or Matt Worktop and comes complete with Quartz Daily Cleaner and Polish.

There are x2 colour matched TopSeal included in the kit. TopSeal is an All-in-one waterproof sealant and quick grab adhesive to fix quartz worktops to base units and fix upstand and backsplashes in place. TopSeal will also seal upstand and backsplash joints producing a colour matched seal along the worktop to finish.

### Contents:

- 2 x TopSeal 290ml Cartridge – Colour matched
- 1 x ColorSeam 100ml – Colour matched
- 1 x ColorSeam mixing nozzle
- 1 x ColorSeam cartridge gun adapter
- 1 x Pair of Nitrile Gloves
- 1 x Foam mark and stain eraser
- 2 x Solvent cleaners 20ml
- 1 x Plastic Spatula
- 1 x Protective Scraper with fixed blade
- 1 x Masking tape 25mm x 10m
- 1 x Quartz Polishing Cream – 250ml
- 1 x Microfibre cloth
- 1 x Quartz Daily Cleaner 500ml

# Care Kit

## Quartz Matt Care Kit

Everything required to maintain a Quartz Worktop and keep it looking as good as new.

### Contents:

- Granite & Quartz Daily Cleaner 500ml
- Microfibre Cloth
- Disposable Gloves
- Matt Stone Paste – 150g
- Abrasive Disc Pad – White

## Quartz Gloss Care Kit

Includes everything required to maintain a Quartz Worktop and keep it looking as good as new.

### Contents:

- Granite & Quartz Daily Cleaner 500ml
- Microfibre Cloth
- Magic Eraser

## Rapid Adhesives

Rapid Adhesives

# Rapid Adhesives

## MitreBond™

### Rapid Adhesive System

MitreBond® & MitrePen® is the original and strongest quick setting adhesive on the market. No nails, no clamping, no waiting - no mess!

MitreBond is an instant bonding low viscosity adhesive to give greater bond strength on porous surfaces. Apply one or two drops of adhesive onto one side of the joint and then apply MitrePen to the other. Quickly bring the two sides into line and firmly press the joint together. Hold for 10 seconds and it's complete.

MitreBond has many uses and can be used to fix Bowed Upstands in place, UPVC window trims, Door trims, melamine end strips, skirting and architrave joints, architectural mouldings, Cornice and Pelmet and many more.

Materials MitreBond can be applied to:

- MDF
- Timber
- Glass
- Ceramics
- Aluminium
- Chipboard
- Perspex
- Steel
- Porcelain
- Some Plastics

Manufactured in the UK

**New stronger adhesive formula. Works faster on low density MDF.**

**fact**  
Quick and clean,  
MitreBond sets  
in 10 seconds

A range of pack sizes to suit your requirements!

MitrePen is a rapid and precise super glue activator. It produces clean, tight and thin joints instantly with no need for clamping.

Aerosols should never be used on any kitchen frontal joints, especially gloss kitchens, as overspray cannot be avoided. Messy aerosols discolour, dull and potentially delaminate cabinet decors.

MitrePen is quick and clean and as it is a precision marker rather than a spray, it prevents the staining caused by overspray.

MitrePen goes further than you may think. It covers the same area as 3 x 200ml size activator sprays!

MitrePen is environmentally friendly and as it is non hazardous it can be easily transported by post. It is also less bulky than an aerosol for fitters to carry around.

Use MitrePen with any superglue and it will set in 10 seconds.

## Pack Sizes

### Blister Pack

50g Adhesive  
MitrePen Activator  
Best seller into DIY

### Aerosol Pack

50g Adhesive,  
200ml Aerosol Activator  
The popular size with all kitchen fitters.

### Midi Pack

100g Adhesive,  
400ml Aerosol Activator  
The Midi pack is twice the size of the standard pack and offers greater value for money.

### Superpack

500g Adhesive,  
2 x 400ml Aerosol Activator  
The Superpack is for bulk users and industrial contracts.

### Triple Pack

3 x 50g MitreBond Adhesive  
and 1 x MitrePen Activator  
The big value pack for those who prefer to use the new MitrePen.

## Jigs, Cutters & Tools

# Jigs, Cutters & Tools

## Worktop Mitre Jigs

Unika manufactures Europe's best selling range of router jigs. Designed in conjunction with fitters they are precision engineered to the highest standards, incorporating the latest design features.

## NEW Universal Worktop Jig

Cuts Composite, Laminate, Compact Laminate and Solid Wood Worktops.

Cuts 10mm inset for – Composite, Solid Wood and Square Edge Worktops up to 10mm. 10mm cut requires less router work and produces a neater joint.

Cuts 23mm inset for – Standard Laminate Worktops with a radius edge of more than 10mm.

### Cuts:

500mm, 600mm, 616mm, 635mm & 700mm worktops  
90° Left and Right joints  
Corner cooking solution  
3 Bolt slots for standard and slimline bolts  
3 Toggle bolt slots for compact laminate  
Fixed external radius

### Features:

- NEW Compact Laminate toggle bolt cut out slots
- Includes 6 nylon aligning pegs and full user instructions.

# Jigs, Cutters & Tools

## 900mm Jig

### Cuts:

500, 600, 616, 635, 650, 700, 900, worktops

90° Left and Right hand joints

4 Bolt slots for standard and slim line bolts

Slimline bolts are used on worktops with a minimum thickness of 20mm.

4 Toggle bolt slots for compact laminate.

Fixed external radius and 100mm radius

35mm Hinge hole cut out

Includes 6 nylon aligning pegs and full user instructions

### Features:

- Cuts Composite, Laminate, Compact Laminate and Solid Wood Worktops
- Cuts 10mm inset for – Composite, Solid Wood and Square Edge Worktops up to 10mm
- 10mm cut required less router work and produces neater joint
- Cuts 23mm inset for – Standard Laminate Worktop with a radius edge of more than 10mm.

## Compact Laminate Worktop Jig

### Cuts:

600, 616 and 630mm worktops

90° left and right joints

3 bolt slots – to suit Unika toggle bolt

### Features:

- The New Compact Laminate Worktop Jig will cut discreet 10mm deep, 90° mitre joints into compact laminate worktops.
- Bolt slots can be cut to accommodate the Unika toggle bolt which will act as a clamp and hold the joint together.
- Unique 'one way' peg holes to avoid costly errors.
- Includes 6 nylon aligning pegs and full user instructions.

## Compact Lock Jig

Unika Lock Jig is designed to cut the mortise and face plate recesses for popular door locks.

### Face Plate:

6" x 1"  
4<sup>3</sup>/<sub>4</sub>" x 1"  
2<sup>1</sup>/<sub>4</sub>" x 1"

### Lock Body:

4<sup>1</sup>/<sub>4</sub>" x 3<sup>3</sup>/<sub>4</sub>"  
3" x 3<sup>3</sup>/<sub>4</sub>"  
7<sup>7</sup>/<sub>8</sub>" x 5<sup>5</sup>/<sub>8</sub>"

### Features:

- Produces quick, clean and accurate results on doors 34mm to 58mm thick.
- Uses 12.7mm cutter and 16mm guide bush.
- Elongated securing clamps for easier operation and safer working. Interchangeable laminate plates for various lock sizes.

## Compact Hinge Jig

The Compact Hinge Jig is used to recess 76mm and 102mm hinges in doors and door frames.

The recess will be 20mm for a 76mm hinge and 30mm for 102mm hinge.

The jig will recess hinges to a minimum distance of 230mm (in accordance with BS EN 1935) from the top and bottom edge of the door.

### Features:

- Small piece jig means it is easy to store and transport to jobs.
- Compact Hinge Jig has adjustable set up for door and frame. This means the distance between hinges can be altered.
- Incorporates bradawl pin fixing for extra stability.

## Staircase Jig

### Cuts:

Open tread and closed tread stair profiles

### Features:

- Incorporates a universal router base with four radius bushes, so any popular router will work with the jig.
- Sliding pegs and bar are attached to the Jig so no pieces will get lost!
- Depending on the tread thickness a 16mm or 22mm dovetail cutter is used.

## Letterbox Jig

### Cuts:

All popular letterbox sizes.

### Features:

- All popular routers will work with the jig.
- One piece 'Larger sized' Jig for stable and safe operation (easy to clamp in place).
- Uses 12.7mm cutter and 16mm guide bush.

## Drainer Jig

- Unika quality precision made tool which will last for many years.
- 12mm Compact Laminate guaranteed never to warp.
- 10mm cut required less router work and produces neater joint
- The Drainer Jig routs sloping drainage groove in natural wood, compact laminate and solid surface worktops, commonly used with popular Belfast and undermounted sinks.
- The new grooves are now 6mm deep so they can be used on slim line surfaces like compact laminate and quartz.
- Each groove is approx. 450mm in length.

## Belfast/Butler Sink Jig

Belfast/Butler Sink Jig is suitable for ceramic sinks up to 1050mm long and from 440 – 515mm wide.

Belfast/butler sink jig will rout recesses into worktops for single or double Belfast sinks. It enables you to accurately rout a drip channel groove on the underside of the worktop and around the outside of the sink recess (5-6mm from the worktop edge).

- For Worktop Recess use with a 12.7mm Tungsten Carbide Router Cutter and 30mm guide bush.
- For Drip Channel groove use with a 5 or 6mm diameter (3/16" or 1/4") Tungsten Carbide Round Nose Cutter and 16mm guide bush.

## Sink and Hob Aperture Jig

Sink and Hob Aperture Jig will enable you to quickly and neatly, rout recesses and apertures in worktops to fit a range of sinks and hobs. Use with a 12.7mm diameter x 50mm Tungsten Carbide Router Cutter.

### Features:

- The jig has four sets of radius curves, left and right hand at 100, 80, 60 & 40mm radii.
- Left and Right hand 90° Angles and a central slot that will enable you to cut straight cuts up to 480mm long.
- Each set of radius curves is paired with a set of peg holes that will set the jig at 50mm from the edge of the worktop.

## fact

Unika offers a bespoke jig manufacturing service. We can make any jig to suit a wide range of applications.

## Radius Jigs

Unika produce a range of radius jigs for:

- Cutting wall and base carcass units to fit concave doors.
- Cutting carcass units and worktops for island units.

# TopMarker

TopMarker is a new worktop tool that will assist the kitchen fitter to cut out an accurate and consistent aperture in which to fit a sink and hob. TopMarker speeds up marking out for the installer and improves accuracy.

TopMarker can also be used to mark measurements for the placement of door handles. Use it to mark out a 45° angle – internal or external. If the hob is to be fitted in a corner situation there is a 22.5° angle on the marker.

TopMarker is made from 13mm Compact Grade Laminate, it's a quality tool which has been built to last. It is a handy time saving device which produces a uniform result every time.

TopMarker now has a 35mm hinge hole cut out to recess integrated door hinges.

This can be used in conjunction with a drill and 35mm hinge cutter for easy cut out with no drill slip/movement.

The hinge hole is also set in 22.5mm so it is ready to go once clamped in place.

# PanelScribe

## Features & Benefits

The PanelScribe kit ensures clad on decorative kitchen end-panels are cut to fit perfectly with uneven floor and wall surfaces.

PanelScribe kit is different from a standard scribe tool as it has been designed specifically for kitchen fitters who regularly fit end panels. It reduces the amount of measuring and enables the fitter to scribe to uneven floors and walls in record time.

PanelScribe uses the clamps to lift the panel 25mm off the floor and a pencil guide with a radius of 25mm to scribe a line in exactly the right place for cutting. Only one scribe then it's time to cut and fit!

Standard scribes require more measuring and marking and so this job with a standard scribe takes longer to complete.

PanelScribe can be used for scribing multiple panels at once – saving time and money!

## Router Cutters

Unika introduce a new range of high quality Router Cutters. All Tungsten Carbide Tipped – superior quality for a longer life.

### Trade Pack:

3 x ½" Twin Flute Straight Cutters

12.7mm (½") diameter with 50mm cut length ½" shank diameter. Perfect for kitchen worktops and timber routing. All cutters work with Unika Jigs.

### Kitchen Pack:

22 x ½" (12.7mm) Twin Flute Straight Cutters

1 x ½" (12.7mm) Twin Flute Straight Cutter – 60mm cut depth  
Extra long cutter for light weight honeycomb worktops

1 x ¼" (6.35mm) Flush Trim – 25.4mm cut depth  
Use to trim hard laminates e.g. Kitchen Worktops

A great pack for kitchen fitters. All cutters work with Unika Jigs.

### Biscuit Cutter:

1 x ¼" Biscuit Cutter

Use on softwoods, hardwoods, MDF, plywood and chipboard.

Each cutter is supplied with 3 ball bearing guides to suit three sizes of biscuits available:

No.0 – 45mm x 15mm x 4mm  
Suitable for 8-12mm boards

No.10 – 53mm x 19mm x 4mm  
Suitable for 13-18mm boards

No.20 – 58mm x 23mm x 4mm  
Suitable for 19mm + boards.

½" (12.7mm)  
Twin Flute  
Straight Cutters  
- Individually  
packed

## Worktop Protection

Worktop Protection

# Worktop Protection

## Self Adhesive Worktop Protector Rods (30cm & 45cm long)

Stainless Steel finish Worktop Protector Rods are a stylish accessory which look great in all modern kitchens.

They enable you to remove a hot pan from the hob without ruining your worktop.

Each Rod is backed with self adhesive heat resistant tape, so they are easy to apply and can transform your kitchen in less than 5 minutes. They look great on any style of worktop – matt, gloss, solid wood or granite.

The functionality of using self adhesive rods means that the worktop does not need routing and you save on time and mess.

### Easy to fit peel off and press into place

### fact

Worktop Protector Rods have been tested to withstand very high temperatures, water and food spillages.

### Heat & Water Resistant

30cm length

### NEW Black Plated Finish

### Self adhesive apply in seconds

45cm length

## Specialist Surface Cleaners

Specialist Cleaners

# Specialist Surface Cleaners

## Gloss Surface Cleaner

Gloss Surface Cleaner will produce a smear free superior finish on gloss kitchen cupboards, glass, mirrors and chrome surfaces. It has been specifically designed to remove dust, light dirt and water marks.

Gloss Surface Cleaner is a ready to use foam cleaner which cleans and polishes in one convenient and easy application. It is a professional grade cleaner which will reduce the rate of static pick up on any surface and so reduce the dust build up.

Gloss Surface Cleaner is available in a hanging box containing a 200ml aerosol can and microfibre cloth or a 250ml trigger spray (non aerosol version) and microfibre cloth in a shrinkwrap pack.

Aerosol

Non Aerosol

### fact

Multi surface cleaners can be too abrasive for gloss surfaces

## Super Matte Surface Cleaner

New Super Matte Surface Cleaner is perfect for Matte Laminate Worktops, Wall Panels and Doors which are prone to fingerprints. Unika Super Matte Surface Cleaner is a ready to use specialist spray cleaner, which has excellent cleaning power on every day grease and grime. It cleans Super Matte leaving it fingerprint and streak free with a fantastic low sheen finish.

## Stainless Steel Shine

Unika Stainless Steel Shine is a natural oil based polish which leaves a streak free finish to all stainless steel surfaces. It will remove light grease, fat, cooking stains and water marks but is not designed to remove stubborn stains and food residue.

Unika Stainless Steel Shine will leave a protective film on the surface after each application and should be used in conjunction with a daily cleaner.

Use on all stainless steel surfaces including cookerhood, backsplash, fridge etc.

Apply sparingly with a soft lint free cloth to obtain a long lasting protective barrier against further marks.

Use On  
Cookerhood  
Backsplash,  
Fridge Etc.

## Laminate and Antibacterial Surface Cleaner

Use on Laminate & Melamine surfaces

- Unika Laminate Cleaners are ready to use everyday specialist cleaners.
- Clean worktops and surfaces to a sparkling shine – no smears!
- Tackle everyday grease and grime
- Clean worktop safely – they are biodegradable and solvent free
- \*Contains Antibacterial properties, resulting in a hygienically clean surface

## Solid Wood Worktop Cleaner

- Ready to use Specialist spray cleaner
- pH7 Neutral Cleaner will not produce soap residue build up on the surface
- Non foaming and does not leave smears
- Cleans the worktop safely – non hazardous
- Biodegradable and solvent free

Unika Solid Wood Worktop Cleaner is a ready to use specially formulated pH7 Neutral Cleaner. It will remove light grease, fat, cooking stains, food residue etc.

It is important to use pH7 Neutral Cleaner on solid wood worktops because it stops the blue soap film (left by multipurpose cleaners) building up on the surface of the wood. The blue soap film stains the wood and it can be difficult to remove.

## Solid Surface Worktop Cleaner

Use on Solid Surface Acrylic Worktops

- Unika Solid Surface Worktop Cleaner is a ready to use everyday specialist cleaner, which tackles everyday grease and grime.
- Cleans worktop safely – biodegradable & solvent free.
- Cleans worktops without leaving smears to a sparkling clean finish.

## Solid Surface Rejuvenate

Use on Solid Surface Acrylic Worktops

- Solid Surface Rejuvenate will renovate Solid Surface acrylic and polyester worktops.
- It is designed to remove minor scratches and leave the worktop as good as new. Solid Surface Rejuvenate contains mild abrasive particles which when coupled with a white nylon pad will buff up the work surface.
- Use as and when required on worktop areas that are subjected to a lot of wear and tear. Or use to renovate your whole top when it becomes scratched and dull.
- Unika Solid Surface Rejuvenate is a ready to use specialist cleaner that will renovate the work surface safely.

## Composite Sink Cleaner

Unika Composite Sink Daily Cleaner is formulated to easily and safely breakdown limescale on composite sinks - bringing the sink back to new.

Composite Sink Daily Cleaner is a professional grade cleaner with a safe non scratch solution. It will clean without the need for scrubbing - removing everyday grease and limescale.

- Ready to use Specialist spray cleaner
- Every day Professional Grade Cleaner formulated to easily and safely remove everyday limescale, grease and dirt
- Biodegradable
- Cleans sinks to a sparkling shine
- Leaves sinks clean and germ free

## Composite Sink Impregnator

Unika Composite Sink Impregnator/Polish uses a powerful blend of polymers to penetrate the composite sink's porous surface and block out stains.

It provides a protective layer to prevent water spotting and to keep other residue from sticking.

- Ready to use Specialist spray polish
- Composite sinks tend to attract limescale build up. By using Unika Composite sink cleaner and impregnator the sink will be safely cleaned and protected from further build up.
- Use as and when required.

## Solid Surface Shine

Use on Solid Surface Acrylic Worktops

- Solid Surface Shine is a protective cleaner and polish specially formulated for Solid Surface Worktops. Apply weekly to leave a streak free long lasting shine
- Solid Surface Shine will condition your worktop whilst adding a protective barrier against spills, ring marks etc. so making your daily clean a whole lot easier
- Use in conjunction with Unika Daily Solid Surface Cleaner

## Granite Worktop Sealer

Use on Granite, Quartz, Marble, Natural Stone Surfaces

- Ready to use specialist sealer
- Protects against Water & Oil spillages and Stains
- Provides transparent vapour permeable protection
- Invisible coating
- Seals safely – Non hazardous, Biodegradable and solvent free.

## Granite & Quartz Worktop Cleaner

Use on Granite, Quartz, Marble, Natural Stone Surfaces

- Unika Granite & Quartz Worktop Cleaner is a ready to use everyday specialist cleaner, which tackles everyday grease and grime
- Cleans worktop safely –it is biodegradable and solvent free
- Cleans worktops without leaving smears to a sparkling clean finish

## Magic Eraser

Magic Eraser is a brand new cleaning product which will lift tough dirt, stains and marks from virtually any surface – ceramics, plastics, steel, mirrors, glass, flooring, walls etc.

Magic Eraser is made from a special lightweight melamine resin foam that penetrates deep into the surface grooves and breaks up the dirt. Use it to remove persistent marks on quartz worktops.

It will lift marks from the surface with just water – no detergents are required.

## Hard Surface Daily Cleaner

Use on Ceramic and Sintered Stone worktops, glass, mirrors etc

- Unika Hard Surface Cleaner is a ready to use everyday specialist cleaner, which tackles everyday dirt, dust, fingerprints and grease
- High quality professional fast acting cleaner which produces a smear free finish and instant shine
- Cleans safely – Biodegradable and solvent free

## Bathrooms

# Bathrooms

## TopSeal

### Shower Panel Installation

TopSeal™ is a new colour matched Adhesive and Sealant for shower panels in bathrooms.

It is the latest generation, high performance toughened polymer technology. TopSeal's excellent bond strength gives instant grip without support, there's no slip and it has gap filling properties.

It is specifically designed to adhere to most building surfaces including concrete, plaster, plasterboard, wood, plastics, metal etc.

TopSeal replaces slower, weaker silicone which often requires additional hot melt glue or adhesive tape while curing.

For 1000mm panel approximately 1 cartridge is required.

Use it to fix the panel in place and then to seal between panels and at the corners instead of using unsightly metal trims. As TopSeal is colour matched to the panel the sealant bead does not look messy like other sealants can. It is totally waterproof, solvent free and resistant to temperature extremes -40°C to +100°C.

**NEW**

## Laminate Antibacterial Cleaner

Use on Laminate shower panels

- Unika Laminate Antibacterial Cleaner is a ready to use everyday specialist cleaner for shower panels.
- Clean to a sparkling shine – no smears!
- Tackle everyday grease and grime.
- Cleans panels safely – it is biodegradable and solvent free.
- Contains Antibacterial properties, resulting in a hygienically clean surface.

### fact

Multi surface cleaners can be too abrasive for gloss surfaces

## Gloss Surface Cleaner

Gloss Surface Cleaner will effortlessly produce a smear free superior finish on gloss shower panels, glass, mirrors and chrome surfaces. It has been specifically designed to remove grease, grime and soap deposits without scratching.

Gloss Surface Cleaner is a ready to use foam cleaner which cleans and polishes in one convenient and easy application. It is a professional grade cleaner which will reduce the rate of static pick up on any surface and so reduce the dust build up.

Gloss Surface Cleaner is available with a new 250ml foaming trigger spray with microfibre cloth.
